

Infant, Toddler, 3K & School-Age Care

We provide nurturing, structured care for children across multiple age groups in a safe and supportive learning environment.

Infant Care (6 weeks – 2 years)

Our infant program focuses on individualized care, bonding, sensory exploration, and early developmental milestones in a calm and nurturing environment.

Toddler Care (2 – 3 years)

Our toddler program supports early independence, language development, movement, and social-emotional growth. Children learn through hands-on exploration, routines, and play-based learning.

3K Program (3-Year-Old Preschool)

Our 3K program builds early learning foundations through Montessori-inspired, play-based activities. Children develop early literacy, math readiness, social-emotional skills, and independence to prepare for preschool and 4K success.

School-Age Care (5 – 11 years)

Our school-age program supports children before and after school, as well as during school breaks. Children participate in STEM enrichment, homework support, structured activities, and recreational learning.
