

About Us

ABC Bridge Academy is a childcare center dedicated to nurturing young minds in a safe, welcoming, and supportive environment. We provide high-quality care and hands-on learning experiences guided by experienced staff who are passionate about early childhood education and helping every child reach their full potential.

We are currently accepting enrollment for children ages 6 weeks through 11 years old. We are also enrolling children in our 4K Get Kids Ready Program, which offers FREE tuition to eligible families. Our program focuses on kindergarten readiness by helping children develop essential academic, social, emotional, and life skills needed for success in school and beyond.

At ABC Bridge Academy, we utilize a Montessori-inspired curriculum that encourages independence, creativity, critical thinking, and a lifelong love of learning. We believe children learn best through play, exploration, and hands-on experiences. Our classrooms incorporate daily project-based learning activities that introduce children to STEM concepts through engaging and age-appropriate experiences.

We are proud to offer an Early Childhood STEM Program led by a dedicated STEM teacher who works with children of all ages. Through interactive lessons and experiments, children are introduced to foundational concepts in science, technology, engineering, and mathematics, including physics, problem-solving, engineering design, and robotics. These experiences help spark curiosity, build confidence, and prepare children for future academic success.

In addition to our childcare and early learning programs, ABC Bridge Academy proudly offers Children's Long-Term Support (CLTS) services, providing individualized support, daily living skills development, and inclusive learning opportunities for children with disabilities and special needs.

At ABC Bridge Academy, our mission is to create a strong foundation for lifelong learning while partnering with families to support every child's growth, development, and success.
