

## **Children's LongTerm Support Program**

**ABC Bridge Academy proudly provides Children's Long-Term Support (CLTS) Services in a safe, inclusive, and nurturing environment. Our services are designed to support children with disabilities and special needs by helping them build independence, confidence, and essential life skills while participating alongside their peers.**

**We provide individualized support through daily living skills development, social-emotional learning, communication support, community participation, and structured activities tailored to each child's goals and needs. Our team works closely with families and support teams to ensure services align with each child's Individual Service Plan (ISP).**

**Our learning environment is intentionally designed to support all five Wisconsin Model Early Learning Standards (WMELS) domains: social-emotional, physical, language, cognitive, and approaches to learning. Through hands-on activities, learning through play, structured routines, and positive peer interactions, children are encouraged to develop independence, problem-solving skills, self-confidence, and meaningful relationships.**

**At ABC Bridge Academy, we believe every child deserves the opportunity to learn, grow, and thrive in an environment that celebrates their unique abilities and supports their success. Contact us today to learn more about our CLTS services and eligibility requirements.**
